Subject: Falcon Refinery: Request for Information

Jonathan/Scott,

The following items is one the of currently one of the 4 items you guys have left to complete before the removal action is satisfied (unless I need to add more items):

Tank 12 (Material moved from T13): Treat/Dispose of oily water and remove/dispose of any accumulated tank bottoms; Refinery Piping/Equipment

I need to know how much material remains In Tank 12. I also need to know the status of your work to get a permit from TCEQ for irrigation purposes for this water or if it will be disposed.

I need this information today.

Thanks

Gary W. Moore (6SF-ER)
